

GENERAL COVID GUIDELINES

Brussels Expo provides its clients with spaces and infrastructures that meet the strictest health standards, such as **UV-C air purification system**, **Covid-Safe signage** at the outside entrances and in the sanitary facilities, a **digital system for identifying** people and **ticketing by time slot**, **a stock of masks** and **gel dispensers**, and all **contactless equipment**.

As a venue, Brussels Expo introduces its experienced Covid Coordinators to Event organizers so that they can define and implement their **official Event Covid Protocol**.

The below specifications are general, based on the obligations in force as defined by the National Security Council and are to be completed in accordance with the special allowances granted by the City of Brussels for Brussels Expo Venues and the specificities of each Event:

SOCIAL DISTANCING

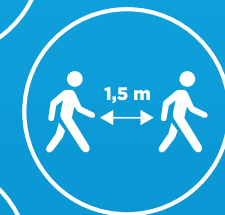

- to ensure the wearing of the mask throughout the site
- to secure a distance of 1.5m between people or according to specific terms (seating)
- to provide a pedestrian plan to avoid or limit crossings of flows
- to ensure people present on the Site to be respected at all times

SANITIZING

- to impose the use of hydro-alcoholic gel by any person entering the Site
- to enable and strongly recommend hand cleaning as often as possible during the event
- to define the specific cleaning protocol for surfaces exposed to contact
- to guarantee the purification of the ambient air by UV-C and fresh air supply
- to give priority to contactless equipment and cashless payments

COMMUNICATION

- to set up a communication plan to all target groups before and during the event
- to identify every day all categories of people present on the Site
- to define the complementary signage to be installed on the event site.
- to determine the instructions to be respected and the obligations of staff and subcontractors
- to manage the contacts database(s) for 14 days upon legal requirements
